

MS Trust - Website Image Dimension & Cropping Guide

Here is a list of all of the required image sizes and scale/crop behaviour for the layout elements and components on the website.

Unless otherwise stated all images will be scaled and centre cropped on upload if larger than given dimensions.

Standard Components

Manual Card / CTA Card

Aspect Ratio: 16:9 Landscape

Upload Requirement: 1024px x 576px minimum

Upload Field Description

Images will be output at 16:9 Landscape aspect ratio, images of a different sizing will be scaled and cropped. Please try to upload an image of at least 1024px width, smaller images may appear pixellated.

Small CTA

Aspect Ratio: 16:9 Landscape

Upload Requirement: 1080px x 608px minimum

Upload Field Description

Images will be output at 16:9 Landscape aspect ratio, images of a different sizing will be scaled and cropped. Please try to upload an image of at least 1080px width, smaller images may appear pixellated.

CTA Panel - Main Image

Aspect Ratio: 16:9 Landscape

Upload Requirement: 1620px x 912px minimum

Resizing

The image will take up the full width on mobile viewports. On desktop viewports the image will take up a percentage of the width determined by the Image Width select field, but will have its height dictated by the text content.

Upload Field Description

Images will be output at 16:9 Landscape aspect ratio, images of a different sizing will be scaled and cropped. This is a background type image that may be scaled and cropped in the browser to fit the space it occupies. Please try to upload an image of at least 1620px x 912px, smaller images may appear pixellated.

CTA Panel - Graphic Background Image

Aspect Ratio: Variable

Upload Requirement: 1620px x 1620px minimum

Resizing

The image will take up the full width on mobile viewports. On desktop viewports the image will take up a percentage of the width determined by the Image Width select field, but will have its height dictated by the text content. When the Image Position select field is set to Left the background image will be positioned in the bottom right of its container. When the Image Position select field is set to Right the background image will be positioned in the bottom left of its container.

Upload Field Description

This is a background type image that will always be scaled and cropped in the browser to fit the space it occupies. Please try to upload an image of at least 1620px x 1620px, smaller images may appear pixellated. This should be supplied as a .png file format to allow transparent backgrounds.

Hover Card - Pictogram Image

Aspect Ratio: Any

Upload Requirement: 440px width or 440px height minimum

Resizing

The image will not be cropped and will be delivered at its original aspect ratio. The image will be centred in a space with a maximum width and height of 140px.

Upload Field Description

Images will be output at the uploaded aspect ratio. Please try to upload an image of at least 440px width for landscape or 440px height for portrait, smaller images may appear pixellated. This should be supplied as a .png file format to allow transparent backgrounds.

File Download

Aspect Ratio: Square

Upload Requirement: 440px x 440px minimum

Upload Field Description

Images will be output at Square aspect ratio, images of a different sizing will be scaled and cropped. Please try to upload an image of at least 440px width, smaller images may appear pixellated.

Image/Text List

Aspect Ratio: 16:9 Landscape

Upload Requirement: 880px x 495px minimum

Upload Field Description

Images will be output at 16:9 Landscape aspect ratio, images of a different sizing will be scaled and cropped. Please try to upload an image of at least 880px width, smaller images may appear pixellated.

Hero

Hero Banner

Aspect Ratio: 6:3.75 Landscape

Upload Requirement: 1440px x 900px minimum

Resizing

The image will take up the full width on mobile viewports. The image will take up 50% of the width on desktop viewports, but will have its height dictated by the text content.

Upload Field Description

Images will be output at 6:3.75 Landscape aspect ratio, images of a different sizing will be scaled and cropped. This is a background type image that may be scaled and cropped in the browser to fit the space it occupies. Please try to upload an image of at least 1440px x 900px, smaller images may appear pixellated.

Hero Banner - Pictogram Image

Aspect Ratio: Any

Upload Requirement: 880px width or 880px height minimum

Resizing

The image will not be cropped and will be delivered at its original aspect ratio. The image will be centred in a space with a maximum width and height of 360px.

Upload Field Description

Images will be output at the uploaded aspect ratio. Please try to upload an image of at least 880px width for landscape or 880px height for portrait, smaller images may appear pixellated. This should be supplied as a .png file format to allow transparent backgrounds.

Hero Banner - Graphic Background Image

Aspect Ratio: Variable

Upload Requirement: 2160px x 2160px minimum

Resizing

The image will take up the full width on mobile viewports. The image will take up 50% of the width on desktop viewports, but will have its height dictated by the text content. The background image will be positioned in the bottom left of its container.

Upload Field Description

This is a background type image that will always be scaled and cropped in the browser to fit the space it occupies. Please try to upload an image of at least 2160px x 2160px, smaller images may appear pixellated. This should be supplied as a .png file format to allow transparent backgrounds.

Content Types
