

# Diagnosis and Management of Common Neurological Disorders in Primary Care

Friday 13th May 2016

Centre for Professional Development, Medical School, University of Birmingham

## Course Overview

This one day course aims to provide an evidence-based approach to the diagnosis and management of common neurological problems, from headache and stroke, through to Parkinson's disease and multiple sclerosis to include the indications for onward referral to neurology specialists. It provides a unique opportunity to interact with the experts on a wide range of neurological conditions.

### Learning outcomes

- An improved understanding of common neurological conditions
- An improved understanding of when and how to investigate common neurological conditions
- An improved understanding of when to seek involvement from other health care professionals and refer to neurology specialists.

### Faculty includes

#### **Professor Carl E Clarke**

Professor of Clinical Neurology,  
University of Birmingham &  
Honorary Consultant Neurologist,  
Sandwell and West Birmingham  
Hospitals NHS Trust

### Registration

£150
